

SALLY ARNOLD

Sally Arnold is a designer from the Karoo who combines her talents with craftsmen in the area to create the most beautiful soft furnishings. I grew up on a sheep farm, so I had my hands in the wool bales at an early age and I love the texture of the soft baby wool, says Sally. Her work feels that way too, soft, luxurious and natural. Her trademarked Soft Table provides inner storage, but is a beautiful object at the same time.

Strong visual designs are her speciality, combining the power of colour with ecologically friendly and natural fibres. Everything is handmade and helps support local communities. Apart from her range of cushions, carpets and furnishings, Sally enjoys getting involved in the design of a space, creating custom pieces for the environment. Inspired by nature, Sally's work is unique and beautifully crafted. Visit www.sallyarnold.com for more information.
